

E.H.S. Policy

Perstorp's goals

- Minimize any significant adverse safety, security, health, or environmental impacts of current or future operations and products.
- Use of integrated safety, security, health, and environment management procedures and planning.
- Follow guiding principles and management practices of Responsible Care.
- Incorporate safety, security, health and environment objectives set forth by the Perstorp Group.

Perstorp's commitment

- Continuously improve operations in the areas of safety, security, health, and the environment.
- Conduct operations to minimize risk of adverse impacts on employees, the public and the environment.
- Compliance with relevant legal and other requirements by a broad margin.
- Conduct facility operations to prevent pollution, reduce waste using recovery and recycling, and promote efficient consumption of resources.
