

Profina™ SP

Description

- ☐ Profina™ SP
- ☐ White free flowing hygroscopic powder
- ☐ Profina SP is meeting the requirements according to EU regulation 96/77/EC
- ☐ Profina SP is meeting the requirements according to Food Safety Standard - FCC

Applications

- ☐ Food preservatives

Delivery forms

- ☐ Bags 25 kg, 1000 kg/pallet

Storage

- ☐ Keep cool and dry in its original package

Certificates

- ☐ HACCP
- ☐ AIB
- ☐ Kosher
- ☐ Halal

Sales specification

Sodium propionate content, % ¹	Min. 99.0*
Water content, % ²	Max. 4.0
*dry content	

E 281 SODIUM PROPIONATE

Definition

Chemical name	Sodium propionate
Chemical formula	C ₃ H ₅ O ₂ Na
Molecular weight	96,06
Assay	Content not less than 99 % after drying for two hours at 105 °C
Description	White crystalline hygroscopic powder. pH of a 10 % aqueous solution: 7.5-10.5

Purity

Water insolubles	< 0.1 %
Iron	< 50 mg/kg
Fluoride	< 10 mg/kg
Arsenic	< 3 mg/kg
Lead	< 5 mg/kg
Mercury	< 1 mg/kg
Heavy metal (as Pb)	< 10 mg/kg

Analytical Method

¹ PO 124-8, ² PO 109-1

Analytical methods are available on request
